

Successful Incorporation of Invisalign First Treatment in the Pediatric Dental Office

Date & time Wednesday, May 21, 2025 | 7:30pm–9:30pm CST

Location Virtual (Part 1/2)

Cost Complimentary Pediatric Dentist Course

CE hours 2.0 CE Hours | Doctor | Code 370

Part 1: Communication for Conversion

This session delves into the benefits of clear aligner therapy as part of interceptive treatment and the intricacies of effectively communicating interceptive treatment care to young patients and their caregivers. Participants will learn how to navigate conversations with children, empowering them to understand and participate in their treatment decisions alongside their caregivers to improve treatment compliance among pediatric patients.

Learning objectives:

- Discuss the benefits and opportunities of clear aligner therapy for interceptive treatment.
- Present interceptive treatment in an engaging, comprehensible, and empowering way for pediatric patients and caregivers.

Date & time Tuesday, June 24, 2025 | 7:30pm–9:30pm CST

Part 2: Successfully Treat Growing patients with Invisalign First and IPE

Join this session to learn the clinical strategies and advantages of treating patients with clear aligners by reviewing strategies for maxillary expansion and growth modification of growing patients. During the session, you will learn strategies for ClinCheck® treatment planning strategies and retention protocols that allow you to plan Phase I treatments and transition into Phase II treatments. The speaker will detail through case examples how to integrate Invisalign First™ treatment into your practice and create a ClinCheck® treatment plan.

Learning objectives:

- Discuss the benefits and opportunities of treating growing patients with Invisalign® clear aligners.
- Apply strategies to treat growing patients with Invisalign clear aligners.

About the speaker:

Dr. Lee Boyd

Dr. Lee Boyd graduated from the University of Kentucky College of Dentistry in 1994 completing Pediatric Dentistry certification at Louisiana State University in 1996.

For 28 years he has been in private, solo practice of pediatric dentistry in his hometown of Allen, Kentucky. Dr. Boyd provides comprehensive pediatric dental care including sedation, general anesthesia, and orthodontics.

He has been an Invisalign provider since 2012, and is currently at the Platinum provider level. Combined, he has provided Invisalign Teen and/or mixed dentition Invisalign First treatment for more than 800 of his private patients. Dr. Boyd is passionate about teaching clear aligner therapy and serves as Director at Clearly (g)nathos Clear Aligner Education and at Clear Aligner Education.
